1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

*Continued Examination Under 37 CFR 1.114*

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 3, 2006 has been entered.

*Claim Rejections - 35 USC § 112*

3. Claims 13-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 13, line 13 recites the limitation "said first elastic member". There is insufficient antecedent basis for this limitation in the claim. No single first elastic member is previously identified.

*Claim Rejections - 35 USC § 102*

4. Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by LaMarche, US 4,333,552. Figs. 3-5 show a damper mechanism 10 comprising: a first rotating member 28-32 being axially movably and unrotatably attached to a piston 15 (via splines 34, 35); a second rotating member 24-27 being configured to rotate relative to the first rotating member; a pair of

first elastic members 61, the first elastic members being aligned in a rotational direction to operate in series with each other in the rotational direction (see also “the spring sets in each group operating in series” at col. 4, lines 8 & 9); and a second elastic member 62 being configured to operate in parallel with the pair of first elastic members (see col. 4, lines 7 & 8), the second elastic member being configured to be compressed in the rotational direction after the pair of first elastic members is compressed to a first angle (see col. 5, lines 5-10) due to relative rotation of the first and second rotating members.

*Allowable Subject Matter*

5. Claims 1-12 are allowed.
6. Claims 13-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

*Conclusion*

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yamaguchi shows a damper mechanism.
